

# Subject Long Term Plan Year 9 2021-20

## Temperance Term

W/C	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	HALF TERM
<b>Area of Study</b>	<b>Living off Earths Resources</b>							
<b>Key Objective</b>	<b>What are natural resources and how do they affect us?</b>	<b>Why are water resources are running out and what can we do about it?</b>	<b>Why is soil so important?</b>	<b>What are the uses and impacts of Oil use?</b>	<b>How can the UK uncouple from fossil fuels?</b>	<b>How does growing demand for resources affect other species?</b>	<b>Should wind turbines be developed on the Isle of Lewis?</b>	
<b>Core Learning</b>	Explain the difference between renewable and non-renewable natural resources Appreciate that natural resources are found everywhere, but are not shared equally Consider the ways in which we use water Explain why, in some places, water is not a renewable resource Describe the global pattern of water stress	Describe what and where the Ogallala is Understand why the Ogallala is running out of water. Consider what can be done to prevent the Ogallala from running dry. Understand why the global demand for fresh water is rising, but the supply in some areas is going down. Describe four ways in which we can meet the growing water challenge.	Explain why some places have more soil than others. Explain why soil is not a renewable resource Describe how soil can become degraded. Locate Earth's dryland areas on a world map Explain some of the causes of desertification in the Sahel. Appreciate that desertification occurs in every continent, but richer countries are better able to cope with the consequences. Describe some of the ways in which desertification is being tackled in the Sahel.	Describe how oil is formed. List some of the ways we use oil in our everyday lives and some of the disadvantages of using oil. Recognise that only some countries have oil reserves, and they make a lot of money from selling it.	List some of the UK's renewable energy sources. Describe the UK's distribution of renewable energy sources. Explain how solar power is made. Explain why the world's poorer countries could benefit most from solar power.	Appreciate how our growing population is affecting other species. List some of the ways in which we can affect the decline of other species. Consider the impacts of our changing climate.	<b>DME</b> Wind turbines bring advantages and disadvantages. Planning is often a problem when locating wind farms due to nimbyism. Example: Isle of Lewis.	
<b>Opportunities for Challenge</b>	Stranded – how would you survive on a pacific Island	Water Conflict the next world war?		Alternative technologies for transport		Carbon challenge		
<b>Assessment</b>			Exam style question - Desertification				DME write up	

W/C	Week 8	Week 9	Week 10	Week 11	Week 12	Week 13	CHRISTMAS
<b>Topic</b>	<b>Earning a living</b>						
<b>Key Objective</b>	<b>What is employment like in the UK?</b>	<b>How has employment changed in the UK?</b>	<b>What is employment like around the world and why is tourism so important?</b>	<b>What are the impacts of tourism and how can they be managed?</b>	<b>Where did the UKs factory jobs go?</b>	<b>What's in your Mobile?</b>	

## Subject Long Term Plan Year 9 2021-20

<b>Core Learning</b>	Understand each of the four sectors of employment in which all jobs are categorised Describe the employment structure of the uk Explain what the economy is and how the uk's economy is doing List some of the factors which influence where jobs are located Explain why different employment sectors are often found in different locations	Interpret a line graph to show how the uk's employment structure has changed over time Explain why the uk's employment structure has changed over time Understand how employment in doncaster has changed since the industrial revolution	Compare the employment structures for three countries Consider why employment structures differ between countries Understand that most jobs related to tourism are in the tertiary sector. Understand the reasons for the growth in tourism	Understand the advantages and disadvantages of tourism. Know how the butler model illustrates how tourist locations change over time. Study benidorm and blackpool as examples of tourist destinations which follow the model. Evaluate if ecotourism is a sustainable form of tourism e.g. Tourism to the galapagos islands, s. America.	Explain why jobs often move between countries using the example of the textiles and clothing industry Understand how the uk's manufacturing industry has changed Locate bangladesh on a world map Consider how bangladesh is able to produce clothes so cheaply	Describe how the different employment sectors are involved in producing a mobile phone Appreciate the importance of earth's resources in producing a mobile phone Define what is meant by a <i>multinational corporation</i> and <i>globalisation</i>	
<b>Challenge</b>	Analysis of UK job market		Problems on reliance on tourism (Seychelles)				
<b>Assessment</b>			Report on relationship between employment structure and level of development		Exam style question, relocation of manufacturing to Bangladesh
