

23 April 2024

Dear all,

Year 4 Science Trip to Solar Farm Bilsham – Thursday 9 May 2024

Your child has an amazing opportunity to visit the Solar Farm in Bilsham where they will get a real insight to how our world is making improvements to lower our carbon footprint and positively tackle climate change and what's more, its right here on our doorsteps in West Sussex.

This solar farm is 86 acres and has 60,000 solar panels and could supply energy to nearly 5,000 houses.

We will travel to and from the farm by coach, with one class attending in the morning and the other class in the afternoon.

The trip has been arranged by Earth Energy Education who are also fully funding the trip.

ParentPay Permission:

For your child to attend this trip you must give your permission through their ParentPay account by **Monday 6 May 2024** at the very latest. Please be aware that when you give consent you will see that Earth Energy Education is also seeking permission to take photographs and video footage that may be used in news media or advertising.

Should your child not wish to attend this trip, they must still attend school and alternative provisions will be made. Normal school procedures will be followed through for non-attendance in school.

Items to Take:

As we will be spending the majority of time outside a windproof jacket is advisable along with wellie boots or other suitable footwear, that they can change into for the trip.

Yours faithfully,

Mr J Wilson & Mr D White

Year 4 Teachers
